Property Management

The janitorial industry has gone high tech. Because of today's increasing sanitation standards, the old mop and bucket have been replaced by new micro-fiber tools, environmentally safe products and state-of-the-art cleaning methods. Valor Janitorial Services leads the way in this evolving industry, offering a new approach to an age-old need. We call it *The New Clean™*, and we'd love to put it to work for your business.

Introducing *The New Clean™*.

Valor Janitorial Services is in the business of making your business look and function at its best. Locally owned and operated, Valor successfully cleans and maintains more than 90 million square feet of work space. Our work meets and exceeds all standards for both the Occupational Safety and Health Administration (OSHA) and the Joint Commission on the Accreditation of Healthcare Organizations (JCAHO).

Our People Make The Business.

In an industry known for its high turnover rate, Valor decided to do something new; we decided to invest as much in our people as we do in our equipment. After all, a business is only as strong as its staff.

Every member of our Valor team has received comprehensive training that includes classroom, written and hands-on instruction. Valor employees also know they are valued and respected and in turn, treat our clients with the very same respect. In the business world, this is invaluable.

We Listen.

No two businesses are alike, which means no two businesses' janitorial needs are alike—which is why we listen to our clients. When we listen, we can identify those exact needs and offer a customized janitorial package that fits.

The Complete Package.

Regardless of the types of janitorial services your business requires, all Valor Janitorial Services come complete with:

- a trained team of professionals
- quality control
- continuous customer service
- routine follow ups
- 24/7 emergency support

Contamination Control.

From the beginning, Valor has recognized that cross contamination and infection control is a major concern for today's businesses. Not all janitorial services understand this. By using our industry experience and *The New Clean* process, Valor has become an expert in medical cleaning, meeting JCHO's standards, OSHA's blood borne pathogen standards—and most importantly—the standards of many healthcare clients' throughout North Texas.

The New Green Clean.

Today many homes and businesses are going green. Valor Janitorial Services is no exception. Our **New Green Clean** process provides everything from environmentally friendly cleaning products, to equipment, paper liners, mops and matting, to provide the safest clean possible.

Why Go Green? Considering these facts, it's easy to understand why businesses are becoming increasingly concerned.

- 80% of our time is spent indoors
- the EPA rates indoor air quality 3-5 times more harmful than outdoors
- the EPA also rates indoor air quality as one of the top five health risks
- 100 million workdays are lost each year due to poor indoor air quality

It's about our environment—and it's also about your bottom line. Facilities that use The **New Green Clean** see a reduction in healthcare costs, supply costs, and utility bills, and an overall improvement in productivity.

The Real Value.

It's tough to put a price on a healthy environment. But Valor Janitorial has priced our services—and we've priced them competitively. Many of our clients are pleasantly surprised at the fair cost of the superior services they receive. Call today for a free estimate, and discover something new: Valor Janitorial – **The New Clean.**

Company Mission.

You Have My Word.

Brandon Hayes
Owner

My name is Brandon Hayes, owner of Valor Janitorial Services. To me, clean is something much more than simply wiping smudges off a mirror or blotting a stain out of carpet. From large conglomerates to self-employed moms, there is a tremendous number of competitors performing the same duties, for better or for worse, and moving on. Starting this business, I spent hours speaking with janitorial professionals and their clients, trying to determine how Valor could set itself apart. An overwhelmingly large percent of these people told me they wanted clearer lines of communication, around-the-clock dependable service, and high technology cleaning solutions. I am very passionate about my business, and take every step necessary to ensure that Valor's clients are completely satisfied. Solid communication, time-tested reliability, and workplace efficiency are the cornerstones of our business. Given the opportunity to surpass your expectations, I am certain you will agree. I thank you for taking the time to review the information in this packet. Please do not hesitate to contact us with any questions you may have. We look forward to making your life a cleaner place.
